28 YEARS OF EXPERIENCE - A SNAPSHOT

OACG Key Personnel have both individually and collectively undertaken many projects worldwide including:

- * Complete overhaul, re-establishment and implementation of logistics & procurement procedures, planning & organisation at Nyamlell camp, Southern Sudan for Cordaid, The Netherlands. This included the development & implementation of tools & systems for checks and balances, transparency and efficiency. 2009
- * Complete feasibility study, costing of project and writing of comprehensive business plan for setting up manufacturing plants for Mosquito Nets (Long Lasting Impregnated Nets "LLIN" and Insecticide Treated Nets "ITN") in Mozambique and Nigeria. The unique aspect of the OACG Business Plan enables the setting up of a complete production facility at approximately "one tenth" of the cost of similar Mosquito Net production facilities in Africa. The OACG plan provides the foundation for governments within the African continent to set up indigenous production providing for domestic consumption (precluding the need to import the finished product) and creating a burgeoning export business thereby providing both local employment and valuable hard currency earnings 2007 / 2008
- * Project design, technical & management consultants to Turn key Camps (TKC) Kenya and Compass Group, United Kingdom for the provision of camps for United Nations Peace keeping monitors in Sudan 2004 / 2005
- * Establishment of procurement and logistics operations with World Vision, India encompassing and co-ordinating the emergency relief operation to the Andaman & Nicobar Islands in the aftermath of the Tsunami 2004 / 2005

CONTINUED

- * Set up, operated and supplied full life support services for McAlpines / Kenana camps at Kosti, Sudan for 400 expatriate personnel
- * Supply management for Saudi Arabian JVC providing life support for 45,000 personnel in desert conditions
- * Set up emergency supply chains with various International Humanitarian organisations providing relief to displaced people and refugees in Bosnia Herzegovina during the Balkans conflict. Also Set up supplies & logistics base in Skopje Macedonia, which operated for 14 months supporting and supplying to humanitarian projects in Kosovo. Seconded to Catholic Relief Services as procurement & logistics co-ordinators.
- * Supplies and logistics consultants to CARE Australia to Serbia just prior to the outbreak of the air campaign 1999 / 2000
- * Set up the Stankovitch Refugee Camp in Macedonia to house 20,000 refugees from Kosovo. Provided both equipment and daily life support through both local and international procurement operations.
- * Following the popular uprising in Romania assisted the new Government to set up an !AIDS! Awareness campaign for young Romanians 2000
- * Set up a pharmaceutical supply chain for ICRC in Zagreb, Croatia 1992 / 1993
- * Designed and costed the Cakovec Refugee Camp in Croatia for the Government of Croatia 1992

CONTINUED

- * Seconded to the International Federation of Red Cross & Red Crescent Societies (IFRC) in Geneva during the first Gulf War to conduct Procurement and Logistics Operations
- * Set up and successfully operated one of the largest volume air, sea and overland emergency supply projects ever attempted in such a short space of time to relieve beleaguered Kurdish refugees after the first Gulf war. Over 100,000 tons of emergency supplies were procured and freighted both prior to the war into Jordan and after the war into Iran and Turkey from Egypt and Europe 1990 / 1991
- * Appointed as Consultants to the Government of Croatia (Office for Displaced Persons & Refugees) for planning and implementation of rehabilitation and reconstruction programmes in Croatia 1992 / 1993
- * Devised and wrote the `Distribution of Funds & Spending Programme` for the United Nations Earth Summit Committee following the Rio de Janeiro UN Earth Summit Conference attended by World Heads of State 1992
- * Project management of IV Solutions plant in Yerevan, Armenia to ISO 9000 Standards of operation 1996 / 1997 / 1998
- * Insurance Assessment & Risk Analysis for start-up businesses in the Caucasus including: Tobacco factory, Ice Cream factory and Diamond Cutting Plant
- * Undertook the complete Procurement & Logistics Programme for USA For Africa during the mid-1980s for Ethiopia, Sudan, Chad and the Sahara region of Africa. Project Budgeting, Fund Management, Procurement & Logistics.

OACG MANAGEMENT & CONSULTANCY SERVICES

QUALITY POLICY STATEMENT

To meet the many different and demanding environments for our products, the Overseas Aid Consultancy Group employs a Quality Management System which meets the needs of the customer/end user internationally. Such activities cover all aspects of the business, including development, manufacture and after-sales service.

The Company is implementing and maintaining a Quality Management System, which targets the requirements of ISO 9001:2000 as it applies to the products and services offered. The Quality Plans and Procedures are maintained by relevant management to satisfy all requirements for registration of the Company with the designated UK Authorities. These also include the UK MoD's own Defence Standards (DEFSTANS) where applicable

The Company sets and reviews policies, standards and objectives from time to time, but particularly following Management Review.

We are focused on continual improvement of our Quality Management System.

OACG MANAGEMENT & CONSULTANCY SERVICES

MISSION STATEMENT

- OACG has full knowledge and working experience of Quality Assurance Procedure to ISO 9000:2000 Standards, NATO Standards and MIL Spec. which in turn govern standards and quality reaction product tracing, manufacture control and systems analysis.
- OACG endeavours to purchase products & services that have the least negative impact on the environment and relate this endeavour to manufacturing, transport, packaging and use.
- OACG supports the global ban on anti-personnel mines and does not knowingly trade or support any organisation or business that is involved in anyway with such products.
- OACG supports the United Nations ban on the use of Child Labour and does not knowingly trade, or support any organisation or business that is involved in anyway with such practices.
- OACG is committed to equality of gender, race, religion, equal opportunities and empowerment of women and fully endorses the United Nations policies in this area of global development.
- OACG places European and International Health & Safety Standards as high priority when considering all aspects of the supply chain and where the end user is concerned.
- OACG maintains the highest standards of confidentiality with our clients. All information passed and entrusted to OACG personnel during the execution of a contract is held in the strictest confidence and inherent non-disclosure and non-circumvention prevails
- OACG A WEALTH OF EXPERIENCE:ALWAYS READY TO SHARE.....
